

KAVIN ARUMUGAM

SOFTWARE DEVELOPER | SOFTWARE TESTER

OBJECTIVE

Detail-oriented IT student with a strong foundation in Java, SQL, and Spring Boot backend development. Proven experience building scalable APIs, managing JDBC database connections, and integrating frontends. Seeking a Spring Boot Developer role to contribute to robust backend architecture.

EXPERIENCE ON PROJECTS

AIR MOUSE

Mar 2023

Managed and mentored a team to assemble and configure an Arduino Leonardo and MPU6050 wired mouse. Used C and the Mouse.h library to send sensor coordinates to the board, implementing complete hardware and software functionality.

VOTING SYSTEM

Apr 2023

Led a team project developing a Java Swing voting system interface. Personally, managed the backend architecture, utilizing JDBC connections and SQL queries to seamlessly connect the application, handle user inputs, and retrieve live voting data.

ENTERPRISES LEVEL USER MANAGEMENT MODULE

Aug 2025 - Oct 2025

Developed the user management module for a "Shopping Enterprises" project during a corporate social responsibility program covering core Java and Spring. Built the backend server leveraging Spring Boot annotation features, configured SQL database connectivity, and integrated it cleanly with a frontend developed using React.

GCBOT: GAMIFIED CLEANING BOT

Jan 2026 – Apr 2026

Developed an AI-powered, teleoperated waste-collecting robot using YOLOv10 for real-time classification. Engineered a three-tier architecture combining Arduino, Raspberry Pi, and a Flask laptop server via TCP sockets, enabling browser-based remote control, low-latency video streaming, and automated weight-based gamified scoring telemetry.

CERTIFICATION

- Completed NPTEL online Certification course on 'Programming in Java'.
- Completed AWS Academy Graduate - AWS Academy Cloud Foundations

ABOUT ME

I love developing software that makes life easier and experiences smoother. I aim to write clean, maintainable code and build applications that are both functional and enjoyable to use.

EDUCATION

MANAKULA VINAYAGAR INSTITUTE OF TECHNOLOGY, 2022

B.Tech of Information Technology

CGPA – 8.12

CORE SKILLS REVERENT

- Java (Core), JDBC, SQL
- Requirement Analysis & Workflow Design
- API Testing (Postman)
- Git & GitHub Version Control
- System Configuration

ADDITIONAL SKILLS

- GO (LEARNING)
- C#, C, JSON
- MySQL, Android Studio, Unity Engine

SOFT SKILLS

- Problem-Solving
- Collaboration & Teamwork
- Fast Learning & Adaptability
- Strong Attention to Detail

EXTRACURRICULAR

- As an NSS volunteer we have conducted 7 days special camp every year and spread awareness and do social work.
